SUMMARY

Passionate and detail-oriented **software developer** with strong expertise in **full-stack web and desktop application development**. Skilled in HTML, CSS, JavaScript, PHP, Laravel, Python, Java, and C++, with experience using frameworks such as Bootstrap and Tailwind to create responsive and user-friendly applications. Proficient in **database management** with MySQL and SQL Server, and experienced in producing clear documentation and technical solutions. Highly motivated to apply technical knowledge, solve problems, and grow as a professional **software engineer**.

EXPERIENCE

- **WEB DEVELOPER**

Ratnapura, Sri Lanka

2024, SEPTEMBER – 2025, JANUARY

Developed a comprehensive school management system for Reliance International School in Ratnapura, implementing a wide range of features to streamline school operations. The system included modules for examination management, fee tracking, class management, grade management, user management, messaging, and mailing. Utilized HTML, CSS, JavaScript, PHP, Bootstrap, and APIs to build and enhance the platform. Dedicated to continuously improving and expanding system functionality, ensuring that the platform met the school's evolving needs.

- **ASSIGNMENT HELPER**

Ratnapura, Sri Lanka

2024, SEPTEMBER – Still

Working as a freelancer providing assignment help and project, completing more than 50+ assignments and projects successfully without failure. My expertise includes documentation and research with Harvard-style referencing, accounting, business-related tasks, system development such as web applications (PHP, Laravel, Python), desktop applications (Java, C++), as well as diagrams, reports, and technical writing. I always ensure quality, originality, and on-time delivery to support students in achieving their academic goals.
